Steve MacConnell
Cincinnati Union Bethel
300 Lytle St.
Cincinnati, OH 45202

Dear Mr. MacConnell:

As the provider of health care at the Anna Louise Inn each week, the Cincinnati Health Network is proud to support the Anna Louise Inn in its mission to provide safe and affordable housing for women. Our Health Care for the Homeless Program has been a partner for several years and we hope to continue to provide comprehensive health care to the women at your site for many years to come.

We strongly support the Inn's efforts to remain in the location at Lytle Park. As the 102 years of history have shown us, this site provides a safe and convenient place for women who desperately need the help that Anna Louise and CUB offers.

The Mobile Medical Van, a collaborative project of the Cincinnati Health Network, the Cincinnati Health Department and UC's Department of Family and Community Medicine provides medical care each Thursday from 1 pm to 4 pm at the Anna Louise Inn. Most of the women who visit the Medical Van at this site do not have health insurance or a regular source of medical care. Working with CUB, we are able to provide residents with high quality health care in a location that is convenient, safe and accessible for them, in keeping with the best practices of our funding agency, the U.S. Department of Health and Human Services.

On behalf of our health care staff, the CHN Board of Directors, and the Health Care for the Homeless Community Advisory Board, we wish you success in your efforts to remain at your site, and hope you will call on us if there is more we can do to support you.

Sincerely,

Kate M. Bennett
CEO
